

Safe, Easy, Powerful E-Payment with ConCardis

- » Safe – Prevention tools protect you against non-payment
- » Easy – Quick, simple integration into your online shop
- » Powerful – a single interface for many different tools and payment methods

5 reasons for using the ConCardis PayEngine

1. All services from a single source

Handling of payments and acceptance agreements (MasterCard, Visa, Maestro, American Express®, giropay, PayPal, direct debiting) for online shop operators, and for telephone and mail orders. We have more than 25 years of experience that you can trust.

2. The highest possible degree of security and protection against non-payment

Protect yourself against non-payment and compromising your data. The PayEngine is PCI-DSS certified and utilises numerous security solutions such as:

- » MasterCard SecureCode and Verified by Visa and J/Secure
- » A secure connection with SSL encryption
- » Integrated fraud prevention (card origin/high-risk countries, IP addresses, blacklists, e. g. anonymous proxies, merchant block lists)
- » Request for card security number (CW2/CVC2, 4DBC) card validity and check digits
- » High system availability
- » Secure operating environment

3. High degree of added value

- » E-Terminal specially adapted for call centre and multi-user solutions (can be accessed as often as needed)
- » Reporting tool already included in the price – you can download and process your sales data in Excel, Word or XML format.
- » Using the PayEngine makes it easier for you as a merchant to obtain a certificate of PCI compliance.

4. Flexible and easy integration

- » Interfaces for shops and systems are already provided
- » Simple to integrate into your existing online shop
- » Platform-independent – compatible with all prevalent operating systems

5. All-round support

- » Free expert technical support and integration help
- » 24 hour helpdesk at no added cost
- » Bank- and PCI-certified high-performance data centre, monitored round-the-clock.

The following shop system interfaces are available (among others):

E-Payment – secure, easy, powerful.

ConCardis PayEngine – the complete e-payment solution
