

FOR COMPANIES  
OF ALL SIZES

## nexi Payengine

Payment needs to be simple and flexible

**Nexi Payengine provides you with a simple and convenient all-round payment-processing solution for successful e-commerce.**

### THE RIGHT SOLUTION FOR YOUR ONLINE BUSINESS

Nexi Payengine makes payment processing in online business simple and transparent for companies of all sizes.

With over 20 languages and more than 130 currencies, Nexi Payengine also offers international customers the best conditions for convenient payments in their home currency. Nexi Payengine can be quickly and easily integrated into all common e-commerce shop systems. The convenient reporting and overview function lets merchants download sales transactions for transparent processing in Excel, Word or XML format.

### MAXIMUM SECURITY

Various instruments for the recognition of fraud as well as global security standards are integrated into Nexi Payengine to optimally protect you against payment defaults and card abuse. Certification according to international security standards (PCI DSS) guarantees the greatest possible data security.

The powerful micro-service architecture ensures that faults or maintenance of individual services do not have any impact on your business. In addition, all technical components are designed with multiple levels of redundancy.

## EXTENSIVE EQUIPMENT

- Revenue growth: one-click-shopping in the look and feel of your own shop design
- Mobile first: checkout and backoffice fully responsive for usage on mobile devices
- in-app shopping: optimised conversion rate with
- SDK for native apps (iOS/Android)
