

EASY AND
QUICKCUSTOMER

nexi Paylink

No more cash or paper invoices

Send payment requests conveniently via email and lead your customers directly to your individually designed payment website.

PAYLINK

No more cash or payment request on paper: simply send your customer a payment link via email, text message, WhatsApp or your social media accounts. The link will take your customer to your individually designed online payment site. Once there, they can choose their preferred payment method and can pay their invoice – immediately and conveniently. Following successful payment, both you and your customer receive email confirmation of the payment made. A safe and convenient solution for both ends of the transaction.

With Nexi Paylink, you receive your payment even before delivery of goods or provision of the services – also perfect for partial and down payments. This helps you avoid payment defaults and delays.

YOUR BENEFITS

- Can be used without programming skills
- Quick configuration
- Flexibly adjustable templates
- All standard payment methods available
- High level of security with 3D Secure payment
- No additional costs for shop system, hosting and IT implementation
- Available in seven languages (German, English, French, Italian, Dutch, Turkish and Portuguese)

NEXI PAYLINK TEST VERSION

Would you like to give Nexi Paylink a try with no obligation? Then get started with your personal test account. After registration, you will be granted complete access to all functions.

Your account will be activated shortly after conclusion of the contract. Your settings and entries will be saved.
